PROFILE

As a motivated and dedicated junior software developer, I am eager to contribute to a dynamic and challenging work environment. Driven by a passion for technology and security, I continually seek opportunities to expand my knowledge and refine my skills. I excel at tackling complex problems with innovative and creative solutions and thrive in environments that embrace new challenges. I am excited to apply my expertise in a setting that fosters growth, collaboration, and forward-thinking.

SKILLS

- Time Management
- Flask/Python

PROFESSIONAL EXPERIENCE

FLUID INTELLECT

- **Junior Software developer**   **Oct 2023- present**
    - Completed Work at Fluid Intellect:
        - Took on diverse responsibilities in mobile front-end aesthetics, WordPress front-end design, and API development using Node.js.
        - Engaged in creative exploration, contributing to the creation of captivating digital experiences.
    - Mobile Front-End Development with React Native:
        - Focused on building intuitive and visually appealing interfaces.
        - Ensured seamless design translation across various mobile devices.
        - Worked under the guidance of senior team members to refine front-end design skills and backend development.

- **Software developer intern**   **March 2023 - August 2023**
    - As an Intern Software Developer at Fluid Intellect I have:
        - Contributed to mobile front-end aesthetics, WordPress front-end allure, and Flask for robust APIs.
        - Explored the realm of crafting immersive digital experiences.
        - Developed Mobile Front-End Mastery with React Native:
        - Focused on mobile front-end development using React Native and React.js.
        - Built reusable components to enhance development efficiency.
        - Created intuitive, visually striking interfaces.
        - Ensured seamless functionality across various mobile devices.

MICT SETA 4IR   **Sep 2022 - Feb 2023**

Software developer intern

- 6-Month Internship at 4IR Lab MICT SETA:
    - Immersed in software development, specializing in both front-end and back-end technologies.
    - Contributed to innovative solutions for real-world challenges.
- Key Responsibilities:
    - Focused on front-end technologies, including React JS for web applications and React Native for mobile applications.
    - Designed and implemented visually appealing, responsive, and user-friendly user interfaces.

EDUCATION

Tshwane University of Technology - South Africa

2020-2022

Diploma in Computer Science

2023 - current

Advanced Diploma in Computer Science

Cisco Certificate

July 2021- December 2021

Fundation in Cyber Security

PERSONAL PROJECT

Selected project:

- **Pizza-App**
  Developed a web application for online pizza ordering,   implementing user-friendly interfaces and real-time order tracking.
  Technologies: HTML, CSS, Java EE, JavaScript, MySQL.
- **Digital Marketing Agency**
  Created a website for a digital marketing agency, focusing on modern design and user engagement.
  Technologies: HTML, CSS, React JS.
- **Book Management**
  Implemented a book management system with features such as cataloging, searching, and user authentication.
   Technologies: React JS, Node JS, MongoDB.
- **Online Shopping**
  Developed an e-commerce platform with secure payment processing and inventory management.
  Technologies: React JS, Node JS, MongoDB.
- **Mobile App for Truck**
  Designed and developed a mobile app for truck management, facilitating efficient logistics.
  Technologies: React Native, Node JS, MySQL.
